

SIGEP BREAD CUP

Enveloped in the picturesque surroundings of a medieval hamlet, the SIGEP 2011 calendar will feature the 5th edition of the International Bakery Contest.

In just a few years, this competition has become an international focus, becoming an event that is a must-see for artisan baking professionals. Again this year, the **SIGEP Bread Cup** will welcome **10 teams** from ten countries, including Italy. As is now tradition, the winning team of the last edition (Hungary) will have available an external space for organizing an event that promotes national production.

Each country participating in the SIGEP Bread Cup will measure itself in five categories: traditional bread, innovative bread, baked dessert, show bread and artistic bread. Five days of competition but also of comparison between an array of such different international schools. A veritable wealth made available to trade professionals visiting SIGEP.

The baking area will also feature a space for **Europa Eventi Bakery**, in which artisans of various origins will present recipes and teach how to make their traditional products. Bakers are expected from Apulia, Sicily, Calabria, Campania, Veneto, Emilia-Romagna, Piedmont and abroad.
